

1958 SUZAN BALL

Patent 1588

New Fragrant Floribunda

An ensemble of striking beauty and delicacy is the Suzan Ball rose. No finer rose could be selected to honor a name symbolic of courage, beauty, and the will to succeed.

Suzan Ball rose is a repeat blooming floribunda of medium size plant with large blooms. Vigor, form and good habit describe most roses but the Suzan Ball rose exemplifies vitality.

Delicate Salmon-Coral blooms are borne in clusters and on stems long enough for bouquets. From its classical bud to full open bloom, the Suzan Ball rose is unchallenged for beauty. And something unique for floribundas, the rose is very sweetly fragrant.

The Suzan Ball rose is certainly a beautiful memorial to a wonderful personality.

Terms and Conditions of Sale

1. All prices quoted F.O.B. Montebello, California. Boxing and baling at cost.
2. Terms: 2% 10 days, 30 days net. Shipment made on open account only after suitable credit has been established with us.
3. In the absence of explicit shipping instructions, we will use our own judgment, for which we assume no liability whatsoever. Free delivery within Metropolitan Los Angeles area.
4. Great care is exercised to label all stock true to name. In event of error, however, our liability is limited to free replacement, or refund of purchase price.
5. All stock offered subject to prior sale. All orders booked subject to crop yield.
6. All claims must be made within ten (10) days after receipt of goods.

All roses offered herein are 2 year old field grown. We take special care in digging and grading. All of our stocks are placed in our new up to date refrigerator to insure that plants are delivered to the trade in the best possible condition.

On Non-Patented Roses you are entitled to the quantity rate if your order includes Patented Roses. For instance, if you order 150 Non-Patented and 360 Patented Roses you will be charged the 510 rate on the non-patented varieties. All orders must be in multiples of 10 of each kind. Retail Price on Collections of 3 or more patented roses, 12½% discount may be allowed.

GRAND OPERA CANNAS

Our Grand Opera Series represents the most glorious new forms and colors brought forth in these lovely and useful flowers. The individual florets that make up the trusses in these sterling varieties are Gladiola flowered. The petals are broad and rounded, each petal touching or overlapping its neighbor. The trusses are luxuriant and full, building into great heads of glorious blooms.

AIDA — Gladiola flowered, broad rounded petals. The base color of Aida is old rose overlaid with delicate salmon—sheer pastel loveliness.

LA BOHEME — The soft rosy peach overlaid with delicate pearl colors the flowers in a manner that baffles description.

LA TRAVIATA — The flowers are beautifully placed in the truss and build up to beautiful heads of color. La Traviata is a self-color, a delightful and lively shade of old rose.

MME. BUTTERFLY — Soft horizon yellow washed with overtones of

daybreak pink tint, coloring the flower in a most beautiful manner.

MIGNON — The lower petal of the giant florets comprising the truss is old gold washed with overtones of peach and rose. The three upper petals are lighter in tone, the old gold being less apparent; the remaining colors, peach and rose, culminating in a soft alpine glow.

RIGOLETTO — Rigoletto produces a beautiful mass of florets of pure canary yellow when first opening, passing to light lemon yellow as the flowers develop.

Prices for the above named varieties:

Per 10, \$3.00; per 100, \$25.00; per 1000, \$225.00

NEW GIANT CANNAS, PASTEL MIXTURE — These are a selection made from thousands of seedlings, most of which have been destroyed. From the group six have been named (described above), and while the remaining varieties are perfectly beautiful it would be unwise to introduce them as there would be too much similarity in color. Instead of destroying them we decided to offer them to our customers in a mixture, each one a different kind, yet colors so selected that they will form a beautiful mixture.

Prices: Per 10, \$2.00; per 100, \$17.50; per 1000, \$150.00

STRELITZIAS

Birds of Paradise are fast becoming very popular in gardens of California and other warm sections of the country. They may be used in places that receive full sun or part shade and will add an exotic accent to any garden. The plants are easy to care for and will grow fast if given plenty of water and fertilizer.

As greenhouse or house plants Birds of Paradise are finding their way as interesting foliage plants which will produce blooms in eight-inch pots.

These Birds of Paradise plants are offered in very attractive packages that are self-selling. It is high profit merchandise that will move "Tie-in items," such as peat and fertilizer when grouped together.

Each packaged plant is carefully root-wrapped to retain moisture for several weeks. A polyethylene hood covers the leaves to prevent damage and moisture loss.

Altogether the most attractive packaged Bird of Paradise on the market.
